

SECTION:**Sustainability****SUBJECT:****Waste and Recycling Policy**

I. Purpose

Acumetis is committed to waste reduction and recycling as part of its broader commitment to responsible environmental practices. This policy seeks to outline the proper waste management and recycling guidelines for our global operations and to establish a consistent framework for responsible waste management, employee participation, and environmental stewardship across the organization.

II. Scope

This policy applies to all Acumetis employees, contractors, and office locations worldwide. Employees are expected to follow applicable local waste management and recycling procedures at their respective office locations.

III. Policy

Acumetis employees and contractors are expected to follow applicable waste management and recycling procedures at their office location. Waste shall be handled and disposed of in accordance with local regulations, building requirements, and office-specific procedures. Employees are encouraged to participate in available recycling programs and support responsible resource use in the workplace. To facilitate proper waste disposal and recycling, Acumetis provides access to recycling collection points and informational signage in leased office locations, while co-working locations utilize the waste management and recycling infrastructure provided by the facility. Acumetis will periodically review its waste management practices to support continuous improvement.

IV. Qualitative Objectives

Acumetis will:

- Foster responsible waste management and recycling practices across global operations.
- Enhance employee awareness and participation in waste reduction, reuse, and recycling initiatives.
- Maintain compliance with applicable laws and local waste and recycling requirements.
- Encourage the efficient use of resources and the reduction of unnecessary waste where feasible.
- Increase the procurement of office supplies made from recycled or sustainable materials.
- Track and monitor waste generation data at office locations where information is available from building management or waste service providers.
- Support the responsible reuse, donation, recycling, and disposal of electronic equipment.

V. Quantitative Targets

Acumetis has established the following waste management and recycling targets:

Target	Baseline (2026)	Goal	Target Year
Percentage of all offices with waste and recycling signage available to employees	80%	100%	2027
Percentage of offices with IT equipment reuse, donation, or recycling program	50%	100%	2030
Percentage of offices with single-use plastic ban	22%	100%	2030
Percentage of offices with reusable kitchenware (plates, mugs, utensils, etc.)	22%	100%	2030
Percentage of offices with access to recycling services	100%	100%	Complete

VI. Review and Governance

Through the implementation of this policy, Acumetis aims to strengthen responsible waste management practices across its global operations and support its broader environmental commitments. This policy will be reviewed annually by the Sustainability team and updated as necessary to support continuous improvement and evolving business needs.
